

# Cartoons for the Classroom

Presented by NIEonline.com and the Association of American Editorial Cartoonists (AAEC)

## Do unvaccinated face deadly risk?

Chattanooga Times Free Press Bennett

Clay Bennett. Chattanooga Times Free Press / Courtesy of AAEC

### Talking Points

1. What are these cartoons saying about the warning from the head of the Centers for Disease Control that we face “a pandemic of the unvaccinated.” as a COVID-19 variant spreads across the United States?
2. Was President Joe Biden correct to say those spreading vaccine misinformation “are killing people?”
3. What groups of Americans are most hesitant or even hostile about coronavirus vaccines?
4. Would you want to be treated by unvaccinated doctors, nurses or dentists?

### Between the lines

“The descriptions from regions of the world where the delta variant has taken hold ... are pictures of ICUs full of 30-year-olds. I think people have no clue what’s about to hit us.” - Dr. James Lawler
