The Denver Post Electronic Edition Quick Guide

Go to ColoradoNIE.com and click on The Denver Post logo to login. Email ColoradoNIE@DenverPost.com if you need help.

**TIP:** Do not use the back button on your browser when you are reading the electronic edition. It will kick you out of the e-edition. Use the navigation inside the eEdition instead.

Want activities to go along with the eEdition? Click on the links under Extras (1) on the left hand side.

**Getting Around in the eEdition** - To access sections, pages or articles, click on Table of Contents. (2)

- The **Table of Contents** lists each section with links to stories (the menu expands under each section).
- You can also choose **Page Thumbnails** for a small image of each page in the eEdition. Click on these to access a page or section.
- Close this when not using for larger newspaper viewing.

**Browse the newspaper**

- Move from page to page by placing your mouse at the top corners of the newspaper (on some browsers the pages curl down). Click on the right corner to move forward, click on the left corner to move back a page.
- Click on the arrows on either side of the page number in the middle of the menu bar. (3) You can also type in a page number to go directly there.
- **SINGLE CLICK** on a page to zoom in, click again to zoom out.
Searching the eEdition is Easy

Click on the **Search** tab (9) to search for specific keywords. Under **Look in** you can choose between today's issue or all 30 days. Under **Show** you can choose articles, ads, pictures or all content. For each result, you'll get a small page thumbnail, a headline, first line, date, section and page number. Click on the thumbnail or headline to see the article on the page to the right. Click “full text” to view the text of the article in a new window.

You can also read issues from the past 30 days.

Choose the issue you want by clicking on the Back Issues tab (5). You have thumbnails of the front pages of issues for the past 30 days. Click on the thumbnail to go to that date. Choose between two views: **Text** and **Paper** (the way the article appeared in the newspaper.) In paper view you can also zoom in and out to change the text size. (6)

Click on **Translate** for a choice of 50 languages. Click on **Listen** for an audio version of the story. (7)

**TIP:** Each time you see an article you want to read, click on the **headline** to enlarge it. That way you will get the article plus any accompanying photos, graphics, or charts.

$63M for flood relief OK’d

Boulder, Larimer and Weld counties will get 80% of the federal relief funds.

By Kurtis Lee and Electa Draper

The Denver Post

LYONS—The federal government on Thursday said nearly $63 million in disaster-recovery funds will flow into Colorado to help counties with housing, infrastructure and economic-recovery projects in the wake of September's deadly floods.

About 80 percent of the $62.8 million grant will be spent in Boulder, Larimer and Weld counties, where the communities hardest hit by floodwaters are located. More money may come in 2014, if damage levels rise.

U.S. Housing and Urban Development Secretary Shaun Donovan, Gov. John Hickenlooper and Sens. Mark Udall and Michael Bennet toured snow-blanketed neighborhoods in Lyons on Thursday that just three months ago were ravaged by raging floodwaters.

“It’s our job to make sure a town like Lyons can recover as fully and as effectively as possible,” Donovan said.

The money comes from the Community Development Block Grant Disaster Recovery program and brings the total in federal flood relief — including Federal Emergency Management Assistance funds — to $125 million. The floods killed nine people, forced 18,000 from their homes, and damaged or destroyed thousands of residences and hundreds of businesses.

FEMA and other federal agencies have provided some aid but not enough for many in the hardest-hit areas, such as Lyons, where rebuilding is just beginning and resources are scant.

In Lyons, where tributaries of St. Vrain Creek come together, floodwaters ravaged two mobile home parks and older residential areas in the heart of town, as well as destroying the small town’s core utilities and infrastructure.

“Two-thirds of our housing stock was impacted, so we’re going to need solutions about temporary and permanent...”
